

DEFENSIVE DRIVING MOTORCYCLES & MOBILES

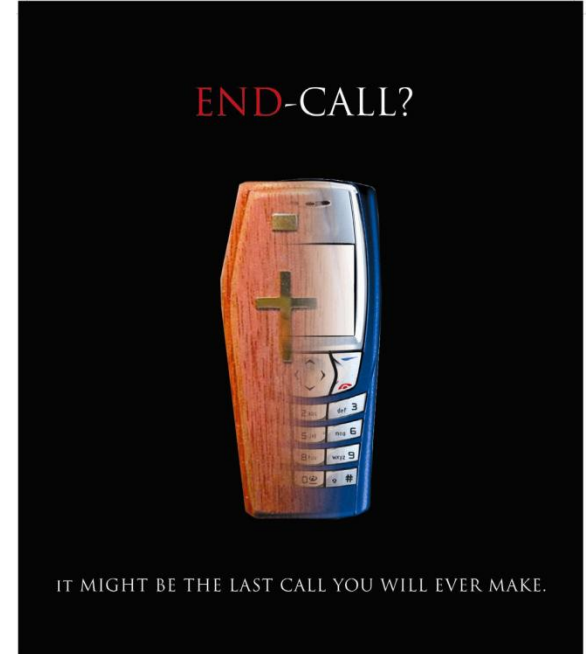

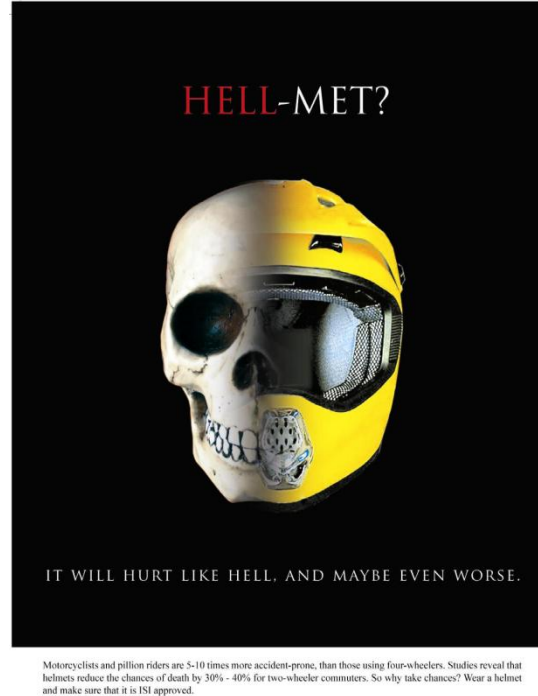

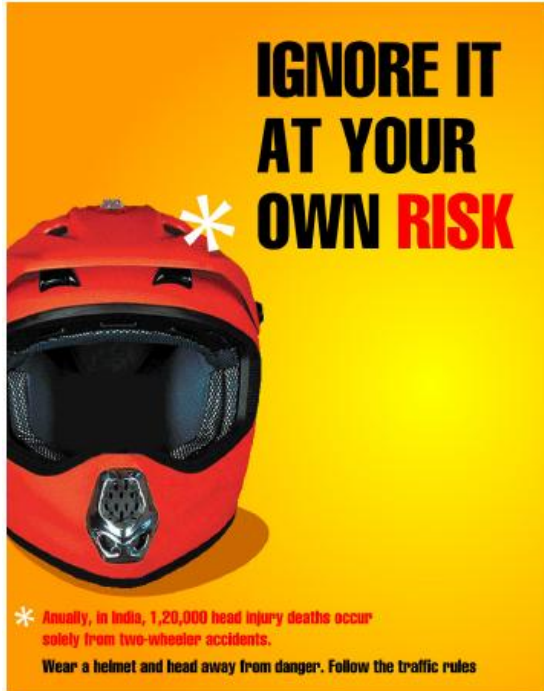

OHS

KEY RISKS

Driving is one of the key Risks in our work

OHS COMMUNICATION

We want you safe Wear Helmet - Drive Safe.msg

We Want You Safe No Calls While Driving.msg

Life Saving Rules

Use Full Body Safety
Harness with Double
Lanyard, Helmet, Shoes
& Maintain 3-Point
Contact All The Time

Strictly Follow Ericsson
OHS standards and
instructions at all times

Wear your seat
belt driving 4-
Wheeler and
Helmet while
driving 2-Wheeler

Verify & ensure
isolation before work
begins and use
related PPEs

Ericsson
approved PPE to
be worn at all
times

Do not work under
drop / exclusion
zone

Do not smoke at
Workplaces

No alcohol or drugs
while working or
driving

Do not use your phone
and do not exceed speed
limits

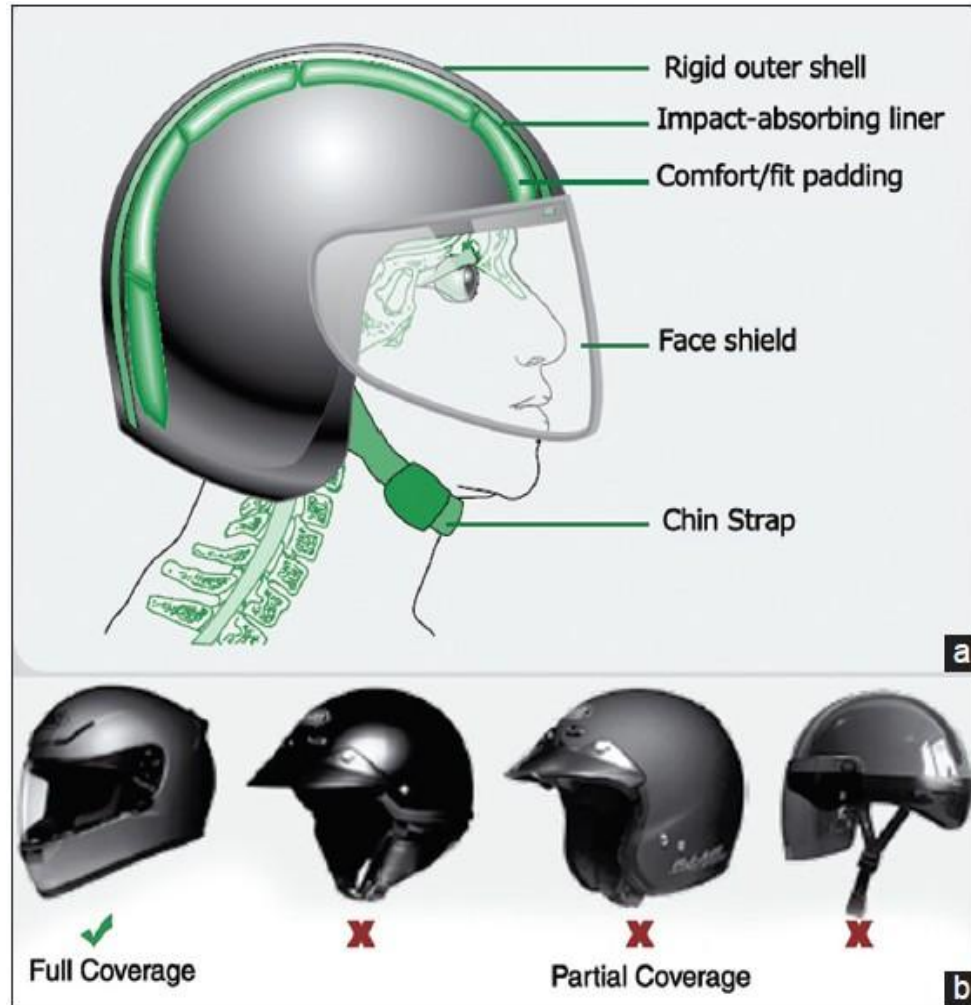

Check Vehicle's
Roadworthiness and
observe vehicle speed

Motorcycle Safety

Always wear a helmet while riding

- Ensure that both passengers are wearing Full Face ISI helmets
- Use a good quality helmet. A thin or bad quality helmet can do more harm than good
- Use Full face piece, ISI Helmet with chin strap
- Do not take more than one passenger as pillion

Defensive Driving principles

- Be more visible - Light color clothes are visible in hours of darkness or use reflective Jacket as provided.
- Use stopping / turning indications while riding
- Observe lane discipline
- Ensure the head and tail light are in working condition
- Rear view mirrors should be well maintained
- Ensure license, identity card and ICE numbers are carried while riding
- Ensure horns and brakes are in working condition.

SAFETY TIPS

Good rider attitude

- **Obey Traffic rules**
- **Responsibility**
- **Being courteous**
- **Considerate**
- **Patient**

SAFETY TIPS

Pedestrian crossing

- **Be observant and slow down!**
- **Do not overtake!**

SAFETY TIPS

Road markings

Observe lane discipline.

SAFETY TIPS

Vehicle documents

It is a must to know about all necessary updated documents and carry them all the time while riding.

SAFETY TIPS

Helmets

**Always use
chin strap!**

SAFETY TIPS

Wearing safety equipment

Always wear a helmet and proper protective clothing.

SAFETY TIPS

Mobile phones

**Don't use
mobile phones
while riding!**

**Use only full face
ISI marked
helmet.**

SAFETY TIPS

Ear phones

Is it illegal to wear headphones while driving?

SAFETY TIPS

Pillion rider

Do not carry extra pillion (triple riding) under any circumstances – it is very unsafe.

Use only full face ISI marked helmet.

SAFETY TIPS

Fatigue

**Make sure
before starting
a trip that you
are fit and alert
and well rested.**

SAFETY TIPS

Effects of alcohol

**Don't ride if you
drink and don't
drink if you
have to ride!**

SAFETY TIPS

Keep it road worthy

Do periodic servicing on time and prevent major accidents.

SAFETY TIPS

Pre-starting checks

Just like in aircrafts, use a "pre-ride check list" before starting motorcycle.

SAFETY TIPS

Visibility

Bike riders are more vulnerable and less visible because of their small size.

SAFETY TIPS

Anticipation

If the road surface changes a two wheeler rider has to be more cautious than a car to cross the loose gravel, potholes and wet sand.

SAFETY TIPS

Braking

**Use both
brakes
manually by
hand and foot,
simultaneously.**

SAFETY TIPS

Correct positioning of hands

Hands should be at the centre of hand grips from where all levers and switches can be operated easily.

SAFETY TIPS

Sitting Posture

Knees should press the fuel tank to maintain the best balance.

SAFETY TIPS

Adjusting the mirrors

Adjust the mirrors so that you have a good rear view.

SAFETY TIPS

Before moving off

**Check
headlamps –
both high and
low beam.**

SAFETY TIPS

Indicators check

You can do this by placing one hand in front of the lens and watching for the reflection.

SAFETY TIPS

Moving off

**Learn to
anticipate the
unexpected.**

SAFETY TIPS

Monsoon driving

Be cautious and considerate on water logged roads to avoid splashing of water.

SAFETY TIPS

Right of way

Give animals on the road the right of way and know the animal prone areas on his route

SAFETY TIPS

Hazard perception

**Anticipating
behaviour of
other road
users and
ability to react !**

SAFETY TIPS

Passing parked cars

**Watch out
for potential
Hazard!**

SAFETY TIPS

Positioning on the road

Make yourself visible!

SAFETY TIPS

Observe the traffic around

**Always keep
your eyes up
and look well
ahead.**

SAFETY TIPS

Choose appropriate speed

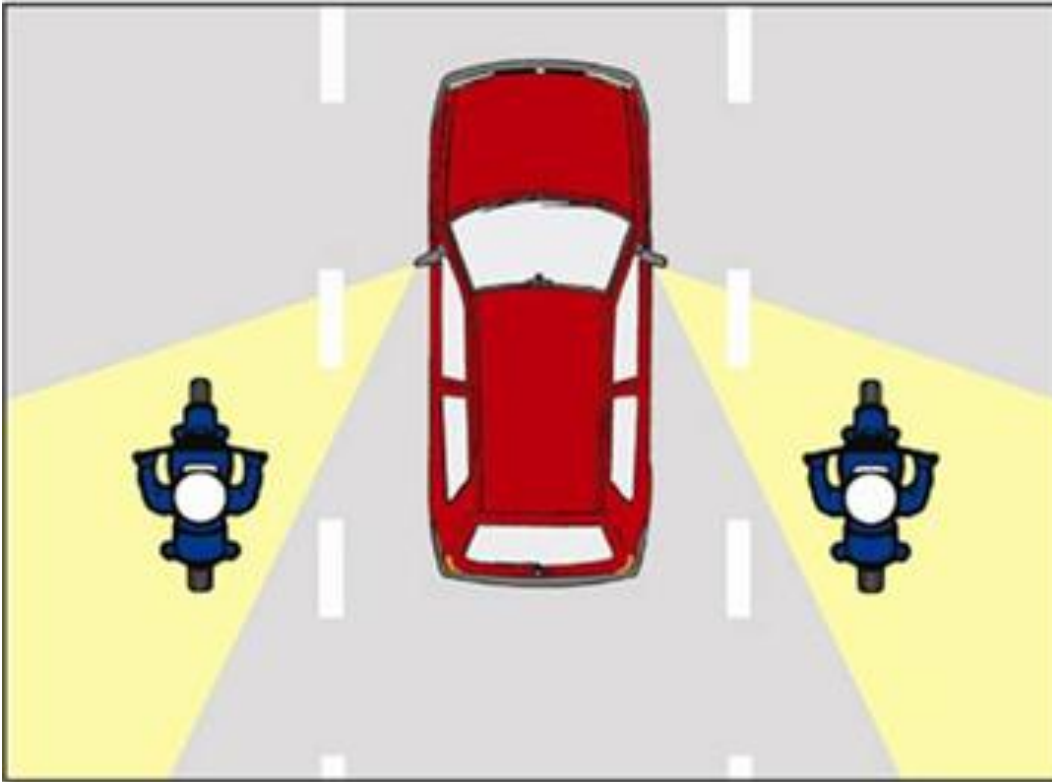

**Always drive at
a speed
suitable for the
road condition!**

SAFETY TIPS

Side separation gap

**Blind Zone –
Beware of your
position!**

SAFETY TIPS

Turning right

**Position
yourself in right
side of your
lane!**

SAFETY TIPS

Overtaking

**Make yourself
visible as
others are
visible to you!**

SAFETY TIPS

Being overtaken

The bike can get unstable, due to wind pressure, if you ride too close to these vehicles.

SAFETY TIPS

Intersections

Select a lane position, where you are most noticeable.

SAFETY TIPS

Cornering

Golden rule:

**“Approach
slowly – move
out fast!”**

SAFETY TIPS

Defensive riding skills and habits

Always look into the mirror and keep the indicator on before getting on the road.

SAFETY TIPS

Riding techniques and skills

The situation ahead needs to be scanned continuously as a matter of practice by looking well ahead of the vehicle.

SAFETY TIPS

Skidding

Sand or loose concrete on the road act like ball bearings and thus reduce the traction of tyres with road surface.

SAFETY TIPS

Broken and bumpy roads

Look well ahead of the road to identify & predict these hazards in time so as to avoid them.

SAFETY TIPS

Unpaved roads

**Try to be in the
centre of
partially paved
roads.**

Guidance while using public transport

- Avoid sitting on the front / rear seat of the vehicle.
- Stay alert during the entire journey.
- Do not board / alight a moving vehicle.
- Do not board the overcrowded auto rickshaw/ public transport.
